TELEPHONE CALL, 70 RUTHERFORD
NURSERIES, CARLTON HILL, N. J.

RUTHERFORD, N. J.

INTRODUCTION

We take pleasure in presenting to you our Catalogue for the Spring of 1903, and thank our friends and patrons for their generous support and complimentary letters received during past season.

Our range of greenhouses and storehouses now covers 100,000 square feet, and our nurseries 60 acres of land, which will materially assist us in giving the needs of our patrons better attention than ever. It is our constant aim to furnish the best of all kinds of horticultural stock our European connections enables us to supply, thus giving our patrons the benefit of our travels and life-long experience.

We solicit your patronage, knowing fully well we can supply the class of stock you need to make your business a success.

If there is anything you want, not enumerated in this Catalogue, kindly send us your order and same will be filled at the lowest market price.

We have extensive office facilities to meet the demands of our increasing business, enabling us to give your correspondence prompt and careful attention.

PRICES in this Catalogue are F. O. B., Rutherford, N. J.

IMPORTANT—This Catalogue cancels all previous prices, either in special lists, offers or catalogues. This rule will be strictly observed.

ORDERS from unknown correspondents must be accompanied by remittances or satisfactory references.

TERMS—Accounts rendered first of every month; a cash discount of 3 per cent. allowed on all orders accompanied by cash. *Six per cent. interest will be charged after 60 days.*

REQUEST your orders to be shipped by express. It will save you trouble and unnecessary delay. We will not be responsible for goods shipped by freight.

All errors and omissions in the execution of orders will be satisfactorily adjusted if we are notified immediately upon the receipt of goods.

PACKING will be charged at cost on all Nursery Stock. This rule will be strictly observed.

We warrant our stock to be as represented in this Catalogue, but do not guarantee crops or assume any responsibility after the goods leave our hands.

VISITORS—Our nurseries are always open to visitors; inspection of our stock will convince you we are filling our orders with the finest class of stock grown. We will be pleased to have any one interested in gardening visit our nurseries, situated at East Rutherford, N. J., where we have on hand quantities of stock of our own growing, in addition to a line of the different stocks in season from the firms which we represent, this facilitating inspection and the prompt execution of orders.

Tusting to again hear from you and your friends, promising our best efforts to give satisfaction,

Yours respectfully,

BOBBINK & ATKINS,

RUTHERFORD, N. J.

NOVELTIES AND SPECIALTIES

IN GARDEN, GREENHOUSE AND DECORATIVE PLANTS

TESTED NOVELTIES—On account of the ever increasing demand for "something new" and entirely different to existing kinds and varieties, we have made a very complete search for beautiful, new and useful plants, and have added to our general lists many rare and old plants, enumerating them in the classes to which they belong.

We draw your attention to the beautiful new Barberton Daisy. This is such an exquisite novelty that, on account of its beauty, we again list it with introductions of this year.

Campanula Persicifolia Moerheimi is also a useful acquisition to summer plants for cut flowers.

Incarvillea Delavayi has proved to be one of the most satisfactory hardy plants ever introduced.

We mention these, knowing their exquisite beauty and usefulness. All other Novelties are equally meritorious.

ASTILBE LEMOINEI GERBE D'ARGENT.

One of the most striking and useful of this class of plants, having long stringy spikes of graceful silvery white flowers. This is a great improvement over all existing varieties. Ea. 25c., doz. \$2.50.

CLEMATIS—*Integrifolia Durandi.*

(Herbaceous Species.)

The most beautiful acquisition to this class of hardy plants, and being a hybrid between the herbaceous and large-flowering type Jackmanni, it still remains herbaceous and at the same time a vine. The color of the flower is a striking indigo blue, form of flower being peculiar and very graceful; only a few plants in existence. Ea. 50c., doz. \$5.00.

HEMEROCALLIS (Day Lily)—*Aurantiaca Major.*

A new Japanese variety of vigorous habit and very free-flowering, with large sweet-scented, trumpet-shaped flowers, which, on well-established plants, measure 5 inches across; the color is deep orange; blooms in June. Ea. 35c., doz. \$3.50.

SPIRAEA PLUMOSA ALBA (Novelty).

Is the best thing in Herbaceous Spiraeas ever put on the market. Doz. \$2.00, 100 \$15.00.

VIBURNUM MACROCEPHALUM.

Is a great improvement over the now popular Viburnum Plicatum. It is identical in habit of growth and other characteristics, and will do well in almost any position or locality. The truss of flower is fully four times larger than in any other variety. Strong bushes. Ea. \$1.00, doz. \$9.00.

CHAMAEPEUCE ARGENTEA GRANDIFLORA.

This is the most striking and ornamental "Thistle" ever introduced, growing 6 feet high, and making a beautiful tropical effect. Ea. 35c., doz. \$3.00.

GERBERA JAMESONI (The Barberton Daisy).

This beautiful South African plant has attracted the attention of lovers of plants all over the floral world. It is deserving of this attention on account of its distinct, exquisite, brilliant scarlet flowers. Its grace and beauty will continue to win the admiration of all true lovers of plants who are so fortunate as to see it in bloom. It is an evergreen herbaceous plant, with peculiar cut leaves. The flowers are erect on a long, strong stem, and are frequently 4 inches across. The plant can be lifted from the open ground in the fall, placed in pots, and will continue to bloom the entire winter. Ea. 20c., doz. \$2.00, 100 \$15.00.

ILEX (Holly).

I. crenata (Japanese Holly). This is a rapid grower, forms a dense, compact bush which can be clipped into shape like boxwood. It is perfectly hardy, thriving in light soil, but preferring a cool situation. The small, deep green, glabrous, lanceolate leaves retain their color through the most trying winter. Ea. 50c., doz., \$5.00, 100, \$40.00.

Gebera Jamesoni—The Barberton Daisy.

INCARVILLEA DELAVAYI.

One of the best hardy plants introduced from China, bearing racemes of delicate rose-pink and red-brown gloxinia-like flowers.

This beautiful hardy plant has been one of the attractions of our nurseries this season, being continually a profusion of bloom. It is, in addition to being a hardy outdoor plant, a splendid pot plant, and should sell well. Strong clumps, doz. \$2.00, 100 \$15.00.

HYDRANGEA HORTENSIA MARIESII.

This is, without doubt, the finest introduction ever made. It is so remarkable that one wonders why such an exquisite variety was not originated before. The sterile flowers are 3 inches in diameter and of a charming delicate pink, slightly suffused with a tint of mauve. It is certainly an entirely new form and will take the place of all existing kinds for pot culture and decorative purposes. 4-inch pots, ea. 25c., doz. \$2.50.

Incarvillea Delavayi.

DEUTZIA CORYMBIFLORA.

This is the first time this highly interesting shrub has been offered in this country. It has long, thin, graceful branches, clothed with large rich dark green leaves. It blooms in May, producing immense corymbs of snowy white flowers in terminal bouquets. Occasionally it blooms again in August and September. It is no doubt the most useful and beautiful of all Deutzias. Ea. 35c., doz. \$3.50.

PRIVET (*Ibota Nana Compacta*).

This originated in our nurseries. It is of a remarkably compact, graceful habit, with rich green foliage. It is almost evergreen. For an individual shrub it cannot be surpassed for gracefulness and beauty. 2-in. pots, doz. \$1.00, 100 \$8.00. Large specimens, \$2.00 to \$5.00 each.

CAMPANULA PERSICIFOLIA MOERHEIMI.

This splendid new Campanula was raised some years ago and was offered last season for the first time; it is one of the best hardy perennials introduced of late years.

This is evidently a thoroughly good plant, a semi-double form of the peach-leaved Bell-flower, and as white as driven snow. The flowers are large and produced freely on the spike. Useful for cutting.

The plant grows more compact than the other persicifolia varieties and the stems are quite covered with very large flowers of the purest white, which have a diameter of $2\frac{1}{2}$ inches and are double and semi-double. The flowers are not bell-shaped like other Campanulas, but resemble a double white Camellia. Ea. 25c., doz. \$2.50.

Campanula Persicifolia Moerheimi.

SAMBUCUS RACEMOSA PLUMOSUS AUREA. (Golden-feathered Elder.)

A distinct variety of the Golden Elder, with deeply cut or laciniated bright golden yellow foliage, that stands the full sun with impunity, and is perfectly hardy. A grand addition to our list of shrubs. Young plants, each 35c., doz. \$3.50.

NEW WICHURAIANA ROSE (The B. & A. Double Pink Memorial Rose.)

There is nothing in roses introduced in recent years that has proved such an innovation or so valuable as the Japanese trailing Rosa Wichuraiana or the Memorial rose. This variety is a seedling from Wichuraiana, carrying with it all its beautiful characteristics in every respect, with the exception of the flowers, which are very double, 2 to $2\frac{1}{2}$ inches in diameter, and are of the brightest and most cheerful rosy pink. Its fragrance is delightful, being distinct from that of any other rose. Strong field-grown plants. Each 35c., doz. \$3.00 100 \$20.00. 2-inch pots, doz. \$1.50, 100 \$12.00.

NEW ROSE SOLEIL D'OR (Golden Sun).

One of the newer varieties from France. Fine large globular flowers, and rich colored, medium-sized leaves. The color of the flower, deep yellow, shaded with orange and nasturtium red. Each 50c., doz. \$5.00.

New Hybrid Tea Rose, Balduin or Helen Gould.

An excellent bedding variety, with large full flowers of fine form, of bright glowing carmine; the bud is long and pointed, and as sweet as a June rose; a free and continuous bloomer. Each 25c, \$2.50, doz. \$20.00.

ROSA RUGOSA ALBA FL. PL.

This is a new double-flowering white Rosa Rugosa, identical to the type, only having attractive double white flowers, which are particularly useful for floral work. Each 50c., doz. \$5.00.

Nephrolepis Piersoni—The New Boston Fern.

New Boston Fern Nephrolepis Piersoni.

This is no doubt the most important addition to the list of decorative ferns since the Boston Fern first attracted attention. Price, 2½-in. pot plants for Spring delivery: Per 12, 75c. each; 50, 60c. each; per 100, 50c. each.

NEW ABUTILON (Pink Beauty).

This splendid new Abutilon is without exception the most beautiful of all the Abutilons. As a bedding plant its value and beauty are unsurpassed. It is of dwarf habit, foliage large, dark green, and color of flower a pretty shell-pink. It is larger than any other variety. It is a very profuse bloomer, the flowers standing up well above the foliage.

Several large specimens were covered with a profusion of blooms at Christmas, one plant having 150 flowers. It is no doubt one of the most valuable and attractive plants for Christmas trade. Price 2½ in. pot plants, each 50c., doz. \$5.00.

CALADIUM, FANCY-LEAVED.

Fancy-leaved Caladiums have in recent years grown rapidly in popular favor, not only for the decoration of the Conservatory, greenhouse and window boxes, but nearly all of the varieties succeed admirably if planted out-of-doors in partly shaded, sheltered borders, in well-enriched soil; while for exhibition plants during the summer and fall months nothing can equal their beauty. Doz. \$1.25, 100 \$9.00.

CALLA MACULATUM.

(Spotted Calla.)

Per 100 \$3.00, per 1000 \$25.00.

GOLDEN YELLOW CALLA.

(Richardia Elliottiana.)

Entirely distinct and unlike all others forms of yellow Callas; it has the same habit of growth as the ordinary white variety, with flowers of same size and shape, but of a rich, clear, lustrous golden yellow color; the foliage is dark green, with a number of translucent creamy white spots, which add much to its beauty. Ea. 50c., doz. \$5.00.

CINNAMON VINE.

Bulblets, per doz. 45c., per 100 \$3.00.

CANNAS.

Below we give a list of the principal varieties of this indispensable plant. We have revised our list of Cannas this season. All inferior varieties have been rejected, and those now offered may be considered the best of their respective type or color.

Salet, vivid rosy	12 00

**LORD PENZANCE'S HYBRID
SWEET BRIARS**

Anne of Gierstein. Dark crimson, good grower.
Brenda. Maiden's blush or peach, dainty in color and shade; the contrast and effect of the bright golden anthers add a peculiar charm to this variety.

Lady Penzance. Beautiful soft tint of copper with a peculiar metallic lustre; the base of each petal is a bright yellow, which, showing through the clear golden anthers, forms a halo round them; very free flowering, with a delicious perfume from foliage and flower.

Lord Penzance. Soft shade of fawn or ecru, passing to a lovely lemon yellow in the centre, sometimes toned with a most delicate pink; very sweet scented.

Meg Merrilles. Gorgeous crimson, very fine flowering; seeds abundantly; robust habit, large foliage.

Lucie Ashton. White, beautifully bordered with Rose.

Amy Bobsart. Fine large carmine flower.

Rosy Bradwardine. Distinct large flower, delicate pink.

Flora McIvor. Violet Rose flower, very fine. Strong two-year-old plants of all the above varieties, \$2 per doz.; \$15 per 100.

STANDARD OR TREE ROSES

We have at last overcome the trouble of the frost killing the stems, and now graft on Rosa rugosa and cinnamomea stocks. We have several thousand of these on hand in the finest and most popular varieties.

Standard or Tree Roses.

STANDARD ROSES—Continued.

2½-3 feet stem, in the best varieties.	Per doz.	Per 100
Standard Crimson Rambler, in tree form	\$4 50	\$35 00
Standard Roses, in all varieties	5 00	37 50

HYBRID WICHURAIANA ROSES

Evergreen Gem. Yellow, changing to white; double.
Gardenia. Creamy white; double.
Pink Roamer. Rich bright pink; single.
South Orange Perfection. Blush pink, changing to white.
Triumph. White; double.
Universal Favorite. Soft light pink; double.
Strong, field-grown plants, per doz., \$1.25; per 100, \$10.

ROSA MULTIFLORA JAPONICA

This beautiful Japanese rose has now become so popular on account of its usefulness that every landscape gardener and florist are using it for outdoor planting.

One year old plants, per 100, \$4; per 1,000, \$35. Special prices on large quantities.

ROSA HERMOSA

We have this in large quantity and fine condition this year. Best pink bedder, the freest and most perpetual bloomer in existence. Only hard freezing in late Autumn draws its flowering season to a close. Still grown by thousands as a market pot plant. Strong. \$10 per 100.

Hardy Herbaceous Plants

**BURBANK'S LATEST AND
LARGEST FLORAL WONDER
SHASTA DAISIES**

Chrysanthemum Leucanthemum Hybridum.

They can be grown out-of-doors by everybody where it is not cold enough to kill oak trees, are perennial, blooming better and more abundantly each season. They bloom for several months. The flowers are extremely large and graceful, averaging about a foot—often

Shasta Daisies.

more—in circumference, with three or more rows of petals of the purest glistening whiteness, on single, strong, stiff, wiry stems, nearly two feet in length. This peculiar grace and remarkable whiteness cannot, of course, be shown on paper.

"Shasta" is only the first of the new type, some of which were for the first time exhibited in the window of a prominent florist. Crowds of people visited the establishment to inquire about the latest floral wonder. The blooms when cut remain perfectly fresh and in good condition for two weeks or more. Think, if you can, what other flower possesses all the above qualities, \$1.25 per doz.; \$10 per 100.

IRIS KAEMPFERI

We have secured in Japan an entirely new and unique collection of Iris Kämpferi. It comprises 50 of the newest novelties originated by the Japanese. Price of collection, \$10.00. We will be pleased to call upon prospective buyers of these collections of Japanese plants, and will show exact reproductions in paintings by Japanese artists. Fine varieties, named, field-grown clumps, per doz., \$1.50; per 100, \$12.00.

HARDY HERBACEOUS CHRYSANTHEMUM MAXIMA

Is of recent introduction, producing large white flowers on long stems; one of the best for cut flowers. Highly recommended to florists who have cut-flower trade. Price, 2½-inch, per 100, \$12.00.

HARDY HERBACEOUS PLANTS—Continued.

PAEONIAS
TREE PEONIES

We have received from Japan a very handsome collection of these, consisting of 50 varieties. Strong, each, \$1.00; per doz., \$10.00. Fine, large specimens, each, \$3.00 to \$5.00.

PAEONIA OFFICINALIS ATRO-RUBRA FL. PL.

This is the darkest variety ever introduced of this early flowering type. It is a rich dark crimson. Strong flowering roots, each, 25c.; per dozen, \$2.50.

AMPELOPOSIS JAPONICA VERSICOLOR

This is identical with *A. Veitchii*, only that it is exquisitely variegated, being of many bright, brilliant colors, perfectly hardy. Strong plants, each, 25c.; per doz., \$2.50.

AZALEA AMOENA

The most popular evergreen flowering shrub in existence. We have the finest stock in the country. 35c., 50c., 75c., \$1 to \$20 each.

AZALEAS—Hardy

For Forcing and Outdoor Planting.

Per doz. Per 100

Azalea Mollis. These are used extensively in Europe for early forcing and outdoor planting, and are great favorites on account of their varied and brilliant coloring. We offer a fine lot of very bushy plants, 12 to 15 inches high, well covered with buds

15 to 18 ins. bushy plants, well budded

5 00 40 00

Azalea Mollis (standard). Fine plants, 3 to 4 feet high, well budded, 75c. to \$1.00 each.

Azalea Mollis Chinensis. An improved form, colors being more varied and striking, new, 15 to 18 ins., bushy, budded.....

6 50 50 00

Azalea Pontica (Ghent). This is probably the most attractive of all hardy kinds.

12 to 15 ins., well budded....

4 50 35 00

15 to 18 ins., well budded....

6 50 50 00

RHODODENDRONS

Our collections consist entirely of Hardy English, Parson's Hybrids, and Catawbiense Grandiflora varieties, and choice forcing kinds.

The Rhododendron as a forcing plant for

RHODODENDRONS—Continued.

Easter is becoming more popular every year. Such desirable varieties as Ponticum, Roseum Prince Camile de Rohan (Rosy Pink) and Cunningham White can easily be forced into flower in three to four weeks from the time they are brought into a warm house.

The \$1.00, \$1.50 and \$2.00 sizes of the above varieties are extra fine, being large compact plants, well budded and clean foliage. We have many other desirable forcing varieties in addition to the above, but we recommend these as being especially fine for that purpose. Every Florist should have a few in bloom at Easter with other stock.

	Per doz.	Per 100
12 to 15, bushy plants.....	\$6 00	\$50 00
15 to 18, bushy plants.....	7 50	65 00

Collection of Evergreens and Bay Trees.

CONIFERS AND EVERGREENS

We call special attention to our collection of Evergreens. We have hundreds of varieties not enumerated in this list. All our Conifers are several times transplanted and set out with a good ball of earth. They are sure to grow. Our prices are very low considering the quality of stock. Cheap Evergreens are dear in the end, and we are convinced that our stock will give satisfaction. See General Catalogue for complete list of varieties.

We have a great quantity of Evergreens in tubs in all sizes and in many varieties. Ask for list with prices.

Don't fail to visit our Nurseries and inspect this stock.

EVERGREENS AT THE PAN-AMERICAN

The accompanying illustration shows a certificate and the Bobbink & Atkins display of evergreens at the Pan-American Exposition. One picture shows, to the left, what was known as the Elmwood entrance, where the greatest number of people entered the grounds. It was impossible to get the whole of the exhibit into one view, as many fine specimen box trees and bays extended along the lawn, both to the right and left. Everything excepting the sweet bays is planted out; we have not lost a single plant. The exhibit consisted of standard and pyramid sweet bays, a large number of finely trimmed box, taxus, blue spruce, and a large assortment of the choicest evergreens. This collection arrived at Buffalo about May 15, occupying one entire car, but I think it is rather unusual in handling so many evergreens that not one should have turned out a loss. —William Scott, in The Florists' Exchange.

NOTE.—For nursery stock, packing will be charged at cost.

For novelties and description of Hardy Plants see our Special Herbaceous Plant Catalogue.

TRAINED FRUIT TREES

We have a large quantity and variety of these trees. It is needless to inform our patrons that trained trees are fast coming into favor in this country, and it will, in our opinion, only be a few years when all kinds of trained trees will be planted in every garden, either large or small.

We have published an illustrated pamphlet of trained trees and same will be mailed on application.

Cordon.

Our General Catalogues

While we have made this Catalogue for Florists and Nurserymen who are especially interested in this class of stock, we have, in addition, issued our General Catalogues as in previous years, which will be found replete with Hardy Herbaceous Plants, Evergreens and Conifers, of which we are large growers and importers; notable among them are Colorado Blue Spruce, *Cedrus Atlantica glauca*, Yews, *Pinus*, Junipers, and many others of equal grace and beauty.

In ornamental trees we carry a large stock of Golden, Black and Red Oaks, Purple and Weeping Beech, Golden Elm and Mountain Ash, Golden and Silver Poplars, and other fancy ornamental trees which would materially add to the beauty of the landscape when planted amongst a general variety of trees.

Flowering and Evergreen Shrubs have been given a place in this Catalogue; this they richly deserve, as no garden is complete and beautiful without them, including Rhododendrons, Azaleas *Amœna*, *Mollis* and *Ghent*; also Lilacs, Spiræas, Mountain Laurel, and others too numerous to mention here.

Summer-flowering Bulbs have not been overlooked, Japan Lilies, Cactus, Dahlias, Cannas, Gladiolus, Gloxinias and Begonias being very conspicuous in our list.

Bay Trees and Boxwood in standard and pyramidal form, and clipped Boxwood in all shapes are in our storehouses.

Fruit Trees both in ordinary stock and trained trees, which have for many years been so popular in Europe, are also listed.

We will take pleasure in mailing these Catalogues free to prospective buyers.

BOBBINK & ATKINS.

INVITATION

We shall be pleased to have anybody interested in Horticulture visit our Establishment, which is situated at Carlton Hill, N. J. We have on hand at all times many interesting Plants, Shrubs, Trees and other stock. Our storehouses and greenhouses cover a superficial space of 100,000 square feet, and at this season the stock we have in them is worth traveling any distance to see. In addition to this, our large Nursery is always worth seeing.

Yours truly,

BOBBINK & ATKINS.

Place Your Import Orders Now

We are the largest importers of Ornamental Florist and Nursery Stock in America, and have our representatives in all parts of the world. We will be pleased to give letters of introduction to any of our growers or representatives in foreign countries, and upon request we will have our representative meet prospective purchasers in any city, who will take pleasure in showing them all horticultural points of interest.

This illustration represents a collection of Specimen Azaleas, imported by us last Fall, many of them measuring 5 to 7 feet in diameter.

We will be pleased to communicate with parties wishing to purchase specimen plants of any kind. We import—direct from Africa, Australia, Belgium, Bermuda, Canada, Central America, East Indies, France, Great Britain, Germany, Holland, Italy, Japan, Mexico, New Zealand, South America, and West Indies—Ornamental Nursery Stock, Plants, Seeds and Bulbs. If interested, write us, and we will notify you when importations arrive, in order that you can inspect the stock.

ASK FOR IMPORT CATALOGUES

“Rutherford Park” Lawn Grass Seed

To obtain a beautiful lawn, one which is pleasing to the eye and a joy to the owner, you must be very particular in the selection of your grass seed. We recommend to you our “**RUTHERFORD PARK**” **MIXTURE**, which we have found very satisfactory in our landscape gardening work, and which has given great satisfaction wherever used. We are the originators of this brand, wishing to have our own seed, on which we knew we could depend.

A great deal of your success with a beautiful lawn depends on the proper preparation of the soil. This should be done by draining, if necessary, and digging or plowing to the depth of 6 to 12 inches, according to the nature of the soil, applying at the same time a liberal quantity of well decomposed manure. Before sowing, the ground should be perfectly cleaned, made level, and evenly raked. The seed should be sown on a calm day, at the rate of 4 to 5 bushels to the acre. The ground should then be rolled, and, as soon as the grass has attained the height of 2 to 3 inches, rolled again. Frequent mowing and rolling are indispensable to maintain the turf in good order.

Our “**RUTHERFORD PARK**” **MIXTURE** will make a close, thick turf in a very few weeks. It roots deeply, enabling it to withstand severe droughts; consequently maintaining its beautiful rich green color the entire season. The “**RUTHERFORD PARK**” is no doubt the Cheapest Lawn Grass Seed offered; not particularly on account of the price, but more from a point of quality and quantity of seed to the bushel, which contains 21 pounds of the finest kinds and varieties of grasses used for lawn purposes. We believe this mixture to be among the best now on the market, and would ask our customers to carefully consider this before placing their orders.

We will supply any quantity our customers may desire to meet the needs of the ground on which it is to be sown.

THE QUANTITY REQUIRED for making new lawns is 4 to 5 bushels to the acre; for renovating old lawns, 1 to 2 bushels. For a new plot, 15 x 25 ft., or 375 sq. ft., two quarts is required, and one quart for renovating old lawn of same dimensions. **Bush., \$4.50.**
